Jamie and her family took a trip to Japan last month. However, before they got to the airport, something happened and almost caused them to miss the airplane.

On that day, Jamie's family got up very early and prepared for their trip. They first took a taxi to the airport bus station. In the taxi, they were very happy. They talked about the food they wanted to eat and the places they wanted to go in Japan. When they got out of the taxi, they forgot their luggage. It was still in the trunk of the taxi. The taxi just left, and Jamie's father decided to chase the taxi and get their things back. He stopped a motorcycle rider on the road and asked him for help. The rider gave Jamie's father a ride. At the same time, Jamie and her mom waited there.

After ten minutes, the taxi driver went back with their luggage, but they didn't see Jamie's father and the motorcycle rider. Ten more minutes later, Jamie's father and the rider were finally back, but they all got hurt. They had an accident when they were chasing the taxi. Jamie's father hurt his knee, and the motorcycle rider hurt his arm. Luckily, their injury was not serious. Jamie's father felt sorry for the rider and gave him some money to see a doctor. The rider said it was okay and left.

Jamie and his family kept on their trip. The accident took them some time, but they still got on the airplane in the end. For Jamie, it was the most special traveling experience.

Murder hornets are large flying insects in Asia. They are big, and some can grow up to 2 inches long. These hornets are famous for their stings. When a murder hornet sting you, you will be very painful. Many stings at the same time can even cause death. That's why people call them "murder" hornets. They are one of the most dangerous insects in the world.

Murder hornets have a scary name, but they only hurt people when they feel not safe. They can be very dangerous when protecting their nests. When you see a murder hornet's nest, the best way to keep safe is to walk away quietly.

Murder hornets can also be dangerous for the ecosystem. They can kill a hive of bees in just a few hours. It is bad because bees are important for growing plants. Many plants can not grow when there are no bees to help. Now many people can see murder hornets besides Asia, like United States. They are new to the United States. They may cause a bad change in American ecosystem, so experts are working hard to stop them from moving to more places.
