“The Swing”

by Robert Louis Stevenson

How do you like to go up in a swing,
Up in the air so blue?
Oh, I do think it the pleasantest thing
Ever a child can do!

Up in the air and over the wall,
Till I can see so wide,
Rivers and trees and cattle and all
Over the countryside—

Till I look down on the garden green,
Down on the roof so brown—
Up in the air I go flying again,
Up in the air and down!

Many students today don’t get enough sleep. This makes them feel tired in class and affects their grades. Studies show that students should sleep at least eight hours a night, but many sleep much less.

One reason for this is too much homework. Some students stay up late to finish their assignments. Another reason is using phones at night. Many students have trouble falling asleep because they play games or watch videos before bed.

Lack of sleep can cause health problems. Students who sleep less than six hours often feel stressed and forget things easily. Also, they may feel sleepy during the day, making it hard to pay attention in class.

Schools can help by giving less homework and teaching students about healthy sleep habits. Parents can also set rules for phone use at night. With more sleep, students will feel healthier and do better in school.
