三、 閱讀測驗（一題 2 分，共 16 分）

1.

 CRH3 First year of operation: 2008 Car length: 20 m (8 cars in total) 350 km / hour 256 seats	 SKS 100 First year of operation: 1985 Car length: 25 m (6 cars in total) 220 km / hour 644 seats	 THSR First year of operation: 2007 Car length: 26.75 m (12 cars in total) 300 km / hour 989 seats	 operation 運作 length 長度 seat 座位
---	--	--	---

- () (1) How long is the oldest train?
 (A) 20m. (B) 25m. (C) 150m. (D) 160m.
- () (2) Which is true about the CRH3?
 (A) Its speed can get as high as 300 km an hour.
 (B) A CRH3 train has the most cars of all.
 (C) Its car length is less than 20m.
 (D) It has more than 200 seats.
- () (3) Which is NOT true about the three trains?
 (A) SKS 100 is the slowest of all.
 (B) THSR carries more people than SKS 100.
 (C) THSR is older than CRH3 but younger than SKS 100.
 (D) CRH3 is the shortest train of the three.

 speed 速度

2.

Not all the energy comes from fossil fuels. Sometimes it (1) comes from renewable sources like the sun, water, and wind. This tells us renewable energy includes solar power, water power and wind power. Renewable sources do not add carbon dioxide to the air when making electricity, so they don't create much greenhouse gas. In this way, we can use renewable energy to slow down climate change. It's friendly to our environment and good for the earth.

fossil fuels 石油
 renewable 可再生
 source 來源
 solar 太陽能
 carbon dioxide 二氧化碳
 electricity 電力
 climate 氣候
 if 假如
 available 可用的
 waste 廢棄物

However, not everyone can get renewable energy easily. It (2) may not be in their city or they may not know they can ask the energy company to provide it. When speaking of the cost, most people would think a little longer before they choose to use it (3). As we know, energy from renewable sources is more expensive than energy from fossil fuels.

According to an energy report, we humans use fossil fuels the most. That's the reason why we create so much greenhouse gas to the environment. And how about renewable energy? Good news! Although it's not that popular, but growing slowly.

Is renewable energy available in your city? If it (4) is, will you use it? If it is not there, how can your city create it? What is the best choice for your city? In Taiwan, more and more people talk about building solar farms to create renewable energy. These farms can help reduce climate change, but create waste when they no longer work. This may be a problem in the future.

() (4) Which "it" is not the same as the other three?

- (A) Sometimes it (1) comes from renewable sources like the sun, water, and wind.
- (B) It (2) may not be in their city or they may not know they can ask the energy company to provide it.
- (C) When speaking of the cost, most people would think a little longer before they choose to use it (3).
- (D) If it (4) is, will you use it?

() (5) What may be the best title for the reading?

- (A) Climate Change (B) Save the Earth (C) Electricity Source (D) Renewable Energy

() (6) According to this article, which is likely true about renewable energy?

- (A) It will add much carbon dioxide to the air.
- (B) It creates less greenhouse gas to the air than oil.
- (C) People choose to use renewable energy at any cost.
- (D) Renewable energy is the most popular in the world.

at any cost 不計代價

3.

Here is the preface of Nick Foster's new book *Married to Food*.

Preface

My mother was lousy at cooking. To her, cooking was more like an exciting experiment. You put some of this and some of that in a pot, and you wait and see what will happen. "No experiments, no experiences." is what she would say when her experiment did not turn out good, and I heard that a lot.

My father was a good cook, and he loved to cook, too. He often said that he got my mother to marry him with a table of delicious food, not with a beautiful ring. "A family needs only one good cook," he said.

Now I am a cook myself. And I have my own restaurant. I learned how to cook from my father, of course. From him, I learned the art of cooking. But I did learn one thing from my mother. It's her famous saying: "**No experiments, no experiences.**"

preface 前言 experiment 實驗 marry 嫁；娶

- () (7) What does it mean when Nick said his mother is lousy at cooking?
 (A) She is interested in cooking. (B) She is good at cooking.
 (C) She thinks cooking is important. (D) She cannot cook well.
- () (8) What is NOT true from the reading?
 (A) Foster has his own business. (B) Foster learned cooking from his father.
 (C) Foster's mother loves doing experiments. (D) Foster's father is a better cook than Foster's mother.

第三部分：寫作測驗，共 24 分

一、文意字彙 (每題 2 分，共 12 分，全對才給分)

- _____ 1. Spiders are not i_____ts. They have eight legs.
