In 2019, a new kind of apple, Cosmic Crisp apples, hit the stores in Washington State. It is reported that the super sweet apples can last for more than a year in a fridge. The fruit naturally has higher levels of sugar and is very juicy and crisp. Besides, researchers say that Cosmic Crisp apples are slow to brown after they are cut. It took farmers and researchers twenty years to make Cosmic Crisp apples. They’ve spent ten million dollars on the plan. For now, only farmers in Washington are allowed to plant Cosmic Crisp apples.
